Celebrate recovery advanced leadership training guide pdf. Celebrate recovery leadership requirements.

Over the past 30 years of watching the Celebrate Recovery ministry grow globally, we have seen and heard from people in the field the growing hunger for more training for themselves and their team. Trained leaders tend to be committed leaders. These trainings were developed to help you and your team grow healthy, competent, and confident leaders. Our goal is to help others carry this message of hope effectively to your hurting communities. We also love and always look forward to getting to meet old and new friends through beautiful connection as we learn and grow together throughout the one-day training experience. The One Day Training Conference is a valuable resource for all Church ministry leaders looking for ways to start, sharpen and grow their local ministry. In addition, the training will help shape your local leadership team in essential ways through the practical and applicable training modules we call the seven keys of Celebrate Recovery. Benefits of Attending the Celebrate Recovery 1-Day Training Conferences Whether you are just starting out or have been in leadership with celebrate recovery for many years, you've never attended this ALL-NEW training conference. In this training you will find incredible value as we walk you through the proven and effective 7 keys of celebrate recovery. We will unpack practical ways to either launch your celebrate recovery, relaunch, or grow your ministry into a healthy and effective ministry for your church and community For the first time ever, we have built in 5 power packed leadership panels with experienced leaders from our Global and National Team! These panels will allow you to hear from a group of leaders discussing practical things to think about and apply to your ministry. Plus, as a bonus we have included discussions on important topics like, mental health, Celebration Place (CR for kids), the Landing (CR for students), and Cultural Communities. In this training we will give you practical tools to help you answer the following questions: What do I need to do? How do I do it and what tools do I need to carry it out? What do I need to do next?
